

# JCR 影响因子分区 打印操作说明

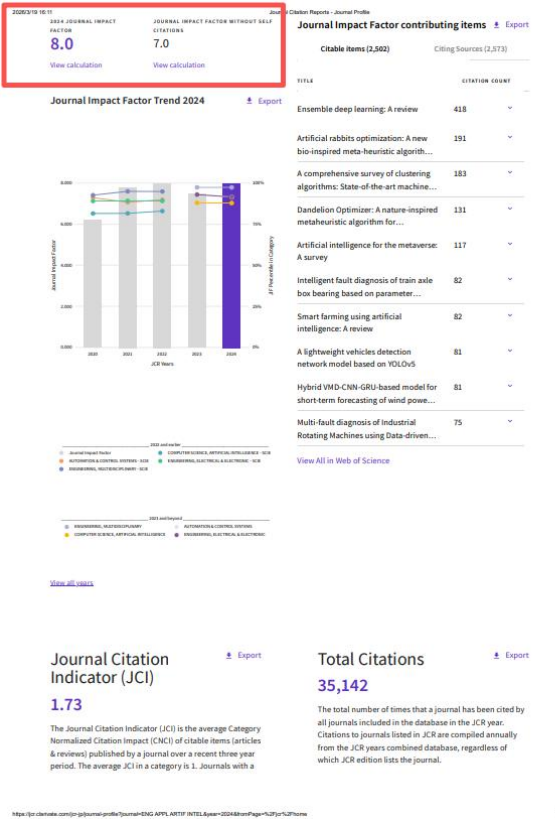

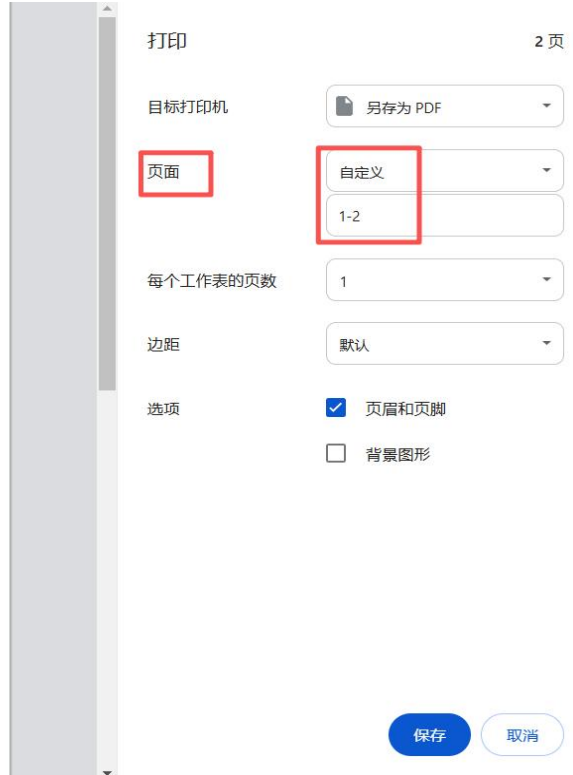

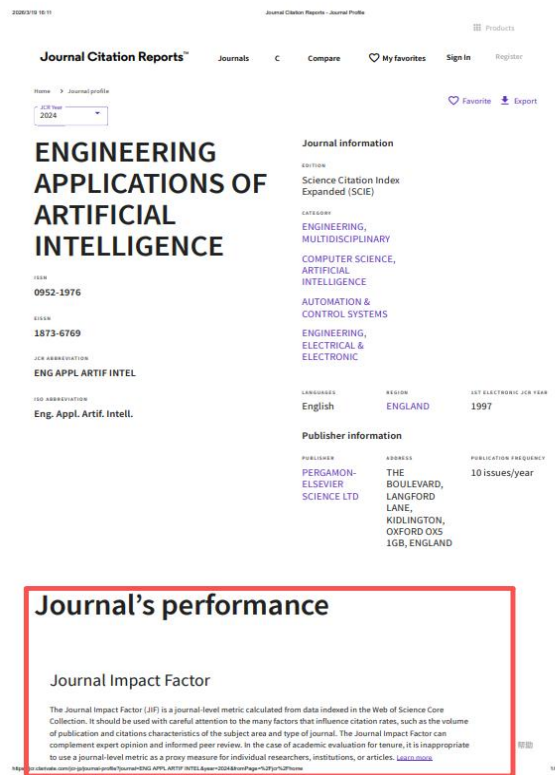

检索期刊名或者期刊刊号 ISSN，进入到期刊详细记录页面，年份默认为最新一年即 **2024** 年。

The screenshot shows the journal profile page for 'JOURNAL OF MATERIALS ENGINEERING AND PERFORMANCE'. The year '2024' is selected in the top left dropdown menu. The page displays journal information, including the ISSN (1059-9495), E-ISSN (1544-1024), and JCR abbreviation (J MATER ENG PERFORM). The journal information section includes the edition (Science Citation Index Expanded (SCIE)), category (MATERIALS SCIENCE, MULTIDISCIPLINARY), languages (English), region (USA), and first electronic JCR year (1997). The publisher information section includes the publisher (SPRINGER), address (ONE NEW YORK PLAZA, SUITE 4600, NEW YORK, NY 10004, UNITED STATES), and publication frequency (24 issues/year).

1. 在页面上鼠标右键，选择“打印”按钮，目标打印机选择“另存为 PDF”，勾选“页眉页脚”
2. 查看左侧打印预览，如果影响因子在第一页，如下图所示，打印第一页即可。

The screenshot shows the same journal profile page as above, but with a print dialog box overlaid on the right side. The print dialog box has the following settings: '打印' (Print), '1 页' (1 page), '目标打印机' (Target printer) set to '另存为 PDF' (Save as PDF), '页面' (Page) set to '自定义' (Custom) with '1' selected, '每个工作表的页数' (Number of pages per worksheet) set to '1', '边距' (Margins) set to '默认' (Default), and '选项' (Options) with '页眉和页脚' (Page header and footer) checked and '背景图形' (Background graphics) unchecked. The '保存' (Save) button is highlighted in blue. The 'Journal's performance' section is visible at the bottom, showing the Journal Impact Factor (JIF) of 2.0 and the Journal Impact Factor without self-citations of 1.8. The JIF contributing items are 2,546 and the citing sources are 735.

3. 如果影响因子在第二页上方，如下图所示，则需要打印第一页和第二页

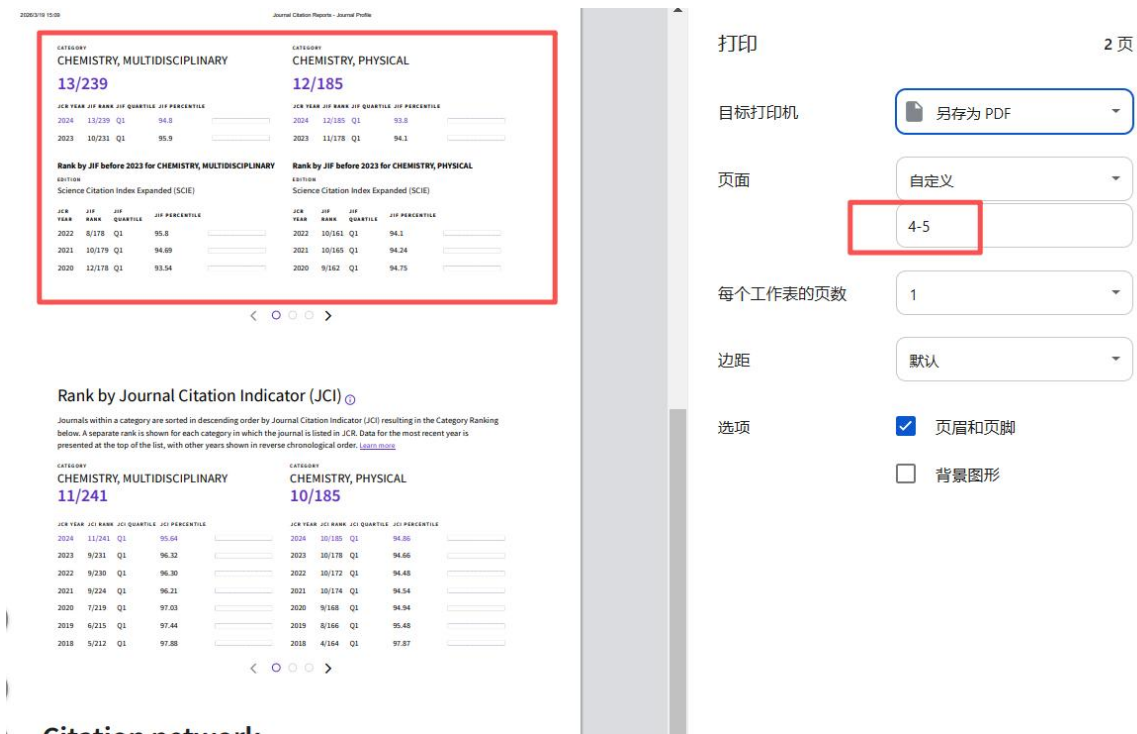

4. 再查看第 4 页或者第 5 页—JCR 分区 (Rank by Journal Impact Factor )，如果 JCR 分区信息在这一页能显示完整，打印这一页即可，如下图所示

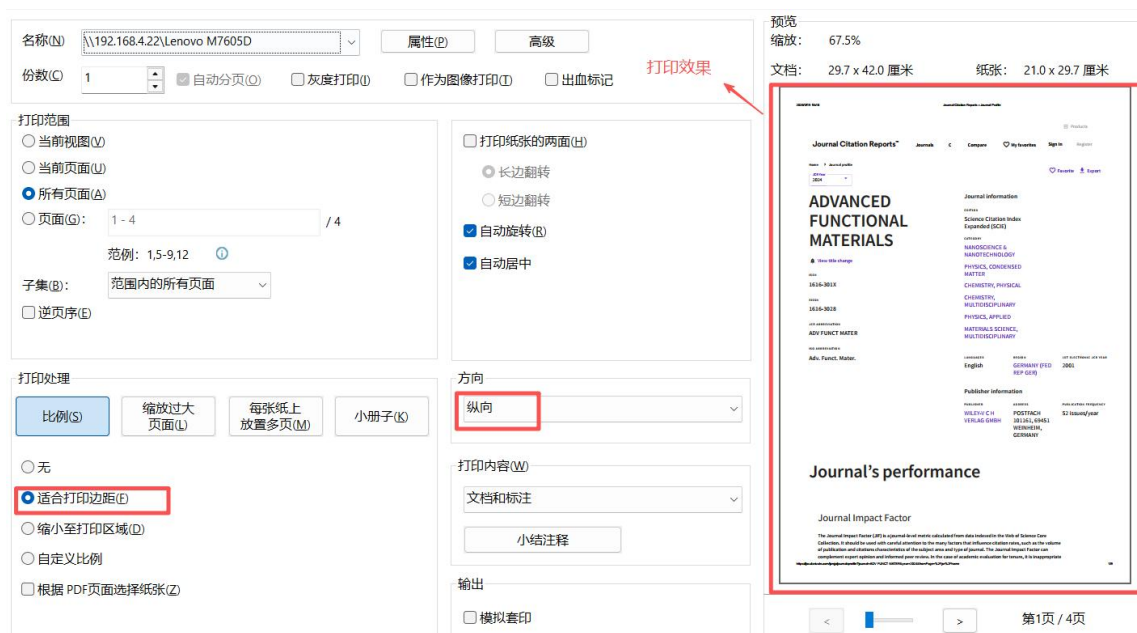

The screenshot displays two pages of a JCR report. The top page shows 'Rank by Journal Impact Factor' for two categories: ENGINEERING, ELECTRICAL & ELECTRONIC (167/368) and MATERIALS SCIENCE, MULTIDISCIPLINARY (264/461). The bottom page shows 'Rank by JIF before 2023' for both categories. The print settings panel on the right shows 'Print' options with 'Save as PDF' selected and 'Pages' set to '4, 5'.

5. 如果分区信息分布在两页（一页不能打印完整），一页是题头（Rank By Journal Impact），下一页是按年代显示的分区数值，则必须把这两页的内容完整打印出来，如下图所示。

The screenshot displays two pages of a JCR report. The top page shows 'Items' and 'Citations\*' sections. The bottom page shows 'Rank by Journal Impact Factor' for two categories: ENGINEERING, ELECTRICAL & ELECTRONIC (167/368) and MATERIALS SCIENCE, MULTIDISCIPLINARY (264/461). The print settings panel on the right shows 'Print' options with 'Save as PDF' selected and 'Pages' set to '4-5'.

6. 打开保存的 PDF 文件，默认纵向打印，适合打印边距，默认打印比例 100%，不能缩印。

7. 携带自己打印的期刊信息页、影响因子页、分区页，前往南区图书馆信息技术部 1006 室认证盖章。
