

1. 检索期刊名或者期刊刊号 ISSN，进入到期刊详细记录页面，年份默认为最新一年即 2024 年。

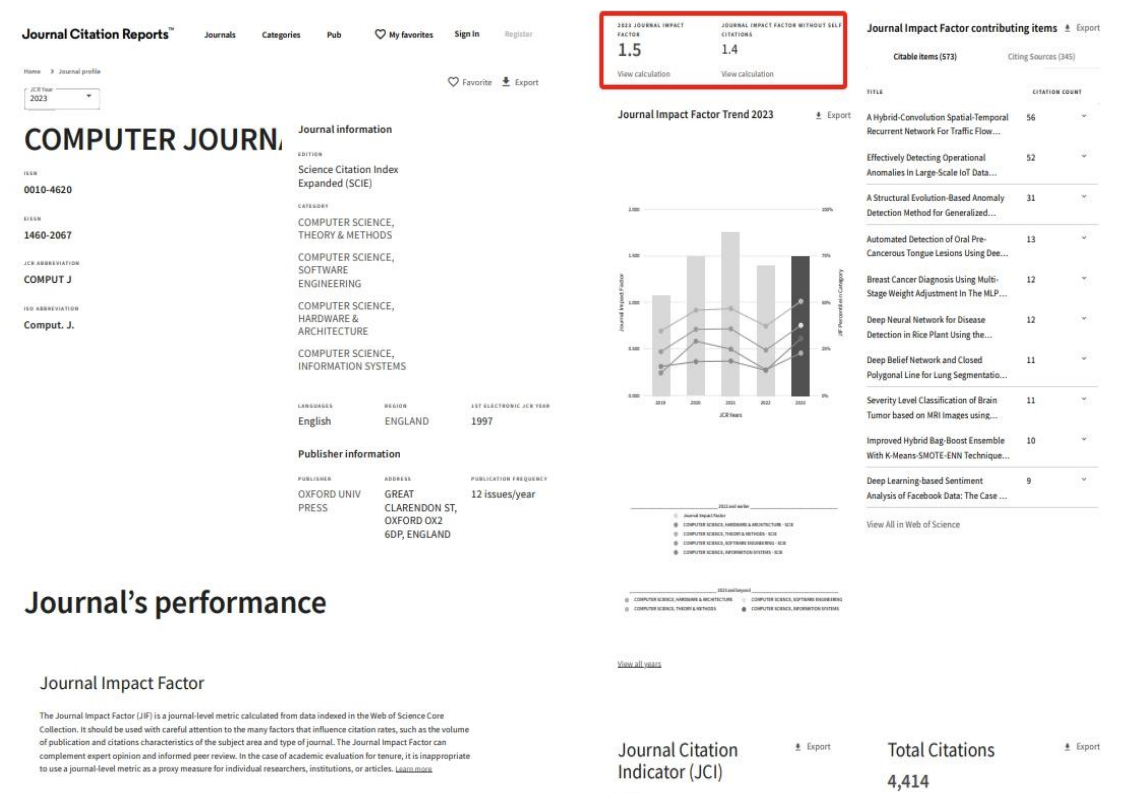

The screenshot shows the JCR website interface. At the top, there's a navigation bar with 'Clarivate' logo and 'Products' link. Below it, a secondary navigation bar includes 'Journal Citation Reports™', 'Journals', 'Categories', 'Publishers', and 'Countries/Regions'. On the right, there are links for 'My favorites', 'Sign In', and a 'Register' button. The main content area is titled 'Journal profile' and includes a 'JCR Year' dropdown set to '2023'. The journal name 'COMPUTER' is prominently displayed. To the left of the name, the ISSN '0018-9162' and EISSN '1558-0814' are listed, along with the JCR Abbreviation 'COMPUTER'. To the right, under 'Journal information', the edition is 'Science Citation Index Expanded (SCIE)' and the category is 'COMPUTER SCIENCE, SOFTWARE ENGINEERING'. Below that, it lists 'COMPUTER SCIENCE, HARDWARE & ARCHITECTURE'.

2. 在页面上鼠标右键，选择“打印”按钮，不能下载打印，也不能保存后打印，只能在线打印。

3. 先查看打印预览，如果影响因子在第一页，如下图所示，打印第一页即可

This block contains two screenshots. The left screenshot shows the 'Journal's performance' section of the JCR website. It features the 'Journal Impact Factor' (JIF) and a table with two rows: '2023 JOURNAL IMPACT FACTOR' with a value of 2.0, and 'JOURNAL IMPACT FACTOR WITHOUT SELF-CITATIONS' with a value of 1.8. The table is highlighted with a red box. Below the table, there are links for 'View calculation' and 'Citable items (268)'. The right screenshot is a print preview overlay. It shows a '打印' (Print) button at the top right. Below it, there are settings for '目标打印机' (Target printer) set to 'Microsoft Print to P', '页面' (Pages) set to '全部' (All), and '彩色' (Color) set to '黑白色' (Black and white). There is a '更多设置' (More settings) section with options for '纸张尺寸' (Paper size) set to 'A4', '每个工作表的页数' (Number of pages per worksheet) set to '1', '边距' (Margins) set to '默认' (Default), and '缩放' (Scaling) set to '默认' (Default). At the bottom, there are checkboxes for '选项' (Options) with '页眉和页脚' (Header and footer) checked, and '背景图形' (Background graphics) unchecked. A '打印' (Print) button and a '取消' (Cancel) button are at the bottom right.

4. 如果影响因子在第二页上方，如下图所示，则需要打印第一页和第二页

5. 再选择第 4 页或者第 5 页—JCR 分区（Rank by Journal Impact Factor）
打印，必须是完整的分区信息（包含题头 Rank 和 Q 的数值）。

6. 如果分区在分页（一页不能打印完整），一页是题头（Rank By Journal Impact），一页是按年代显示的分区数值，必须上下两页完整打印出来。

Rank by Journal Impact Factor									
Journals within a category are sorted in descending order by Journal Impact Factor (JIF) resulting in the Category Ranking below. A separate rank is shown for each category in which the journal is listed in JCR. Data for the most recent year is presented at the top of the list, with other years shown in reverse chronological order. Learn more

Journal Impact Factor

The Journal Impact Factor (JIF) is a journal-level metric calculated from data indexed in the Web of Science Core Collection. It should be used with careful attention to the many factors that influence citation rates, such as the volume of publication and citations characteristics of the subject area and type of journal. The Journal Impact Factor can complement expert opinion and informed peer review. In the case of academic evaluation for tenure, it is inappropriate to use a journal-level metric as a proxy measure for individual researchers, institutions, or articles. [Learn more](#)
